

BMW European Delivery Program

Discover the timeless grace.

BMW's European Delivery Program combines the excitement of exploring Europe with the thrill of driving one of the world's premier performance automobiles. Say good-bye to the timetables of trains and tour buses. The distance between destinations that you once endured now becomes an exciting adventure never to be forgotten.

As you browse the pages of this brochure, imagine yourself in the midst of the magnificent beauty of Europe while driving your new BMW. What was once a dream can now become a reality.

We Invite You to Enjoy
an Incredible Journey.

Benefits you can't ignore.

Savings.

By taking European Delivery, you can realize substantial savings on the purchase price of your new BMW.

Vacation opportunity.

Many BMW European Delivery customers use the trip to Munich as a starting point for a European driving vacation. And, the lower purchase price might even pay for the entire vacation! With multiple approved drop-off locations throughout Europe, you can enjoy great flexibility.

Travel convenience.

Driving your own BMW means traveling on your own terms. Simply go where you please, when you please, and at your own pace.

A memorable BMW driving experience.

BMW is practically synonymous with the autobahn. You can experience the world's most famous roads in the world's most revered performance luxury automobile.

Capture the Elegance
of the European Seascape.

Logistics.

Payment and Leasing

After your order is received by BMW of North America, confirmation of your delivery date and specifications will be mailed to you and your center. Full payment is required a minimum of 14 days before delivery or as soon as your VIN is available. Ask your authorized BMW center about lease or finance options which are available through BMW Financial Services. Note: Cars financed or leased through BMW Financial Services are limited to 90 days maximum stay.

Eligibility and Documents Required

To be eligible, you must be a legal resident of the United States, 18 years of age or older, with a valid driver's license. You may stay in Europe for up to six months from the day you pick up your vehicle. Should you extend your stay beyond 14 days, there is an additional charge for insurance coverage (please see www.bmwusa.com/europeandelivery for further details). BMW will handle all the paperwork necessary for the insurance and registration of the car.

BMW Welt

The BMW Welt is open from 7:30 am for check-in and is open until 8:00 pm, Monday through Saturday. Delivery appointments are made between the hours of 8:00 am and 3:00 pm (last check-in appointment). Your delivery time will be scheduled once your delivery date has been established.

Factory Tours

Upon arrival at the BMW Welt, your specialist will design your day for you, including a factory tour if you choose. It is not necessary to make your tour appointment in advance because tours are scheduled upon arrival at the Welt, Monday through Friday, 8:30 am to 7:00 pm. Last tour begins at 7:00 pm and factory tours are not available on weekends or holidays. There are approximately three English-speaking tours per day that can be coordinated around your delivery.

Insurance

The insurance plan offered by BMW as part of the European Delivery Program is underwritten by one of Germany's largest carriers. The plan provides full coverage in Europe without deductible except in the case of theft, where a 10% deductible applies. BMW provides 14 days of free coverage, however, should customers require additional coverage, it can be purchased in monthly increments. For example, for 45 days of insurance coverage, you would order two months of coverage, which is the actual coverage provided, not one month plus 14 days. Additional details and information on the insurance costs and coverage can be found on www.bmwusa.com/europeandelivery. This coverage must extend to your drop off date and must be confirmed prior to arrival in Germany. It cannot be extended once the vehicle is registered (usually 10 business days prior to delivery). The package also includes Emergency Road Assistance in most European countries at no extra cost.

Navigation System

The BMW on-board navigation system* can enhance and assist you on your European journey. Forget unwieldy maps and stopping to ask directions. BMW's optional on-board navigation system is your personal guide to virtually any metropolitan destination. Simply select "GPS-Navigation" from the on-board monitor menu and input an address. Using a Global Positioning System satellite, a map of your area appears on the dash monitor, showing – and telling – the direction. This invaluable feature also helps locate historic sites, airports, petrol stations and that hidden-away five-star restaurant.

When You've Reached Your Destination

E.H. Harms is the designated freight forwarding company for all BMWs being returned to the United States under the European Delivery Program. You can choose one of many convenient drop-off locations. You simply deliver the car to the local office of E.H. Harms or to its designated shipping agent. The shipping agent will arrange for the car's transportation to closest European port. Note that some locations now require reservations in advance. Phone numbers and email address are conveniently located on our website under each drop-off location. BMW includes the cost of transportation,** customs clearance and duty, and marine insurance in the purchase price of all BMWs sold under the European Delivery Program. Allow approximately 6-8 weeks for shipment to the east coast and 8-10 weeks to the west coast from the drop-off date for your vehicle to arrive at your BMW center for final customer re-delivery.

"Last fall, we made arrangements to purchase a BMW through the European Delivery Program and selected the Alpine Getaway. From our arrival in Munich, where we were greeted by our driver, to our final drop-off of the car in Frankfurt, our experience was exceptional. We have traveled extensively and have never been treated so well. All of the accommodations were first class. Our BMW 530xi was a real pleasure to drive and, with an all-Europe DVD for our Navigation System, we were easily directed to each destination. We would highly recommend the BMW European Delivery program and we would love to repeat the adventure ourselves sometime in the future."

BMW's European Delivery offer.

BMW now makes delivery in Europe easier than ever. Included in the base price of the model are:

- 14 days of free premium road insurance
- Tourist registration
- Factory preparation
- Inland European transportation from your drop-off point to the port of export
- Marine insurance
- Customs duty and clearance
- U.S. port processing and accessory installation
- Wharfage and handling fees
- Return shipment to U.S.

New Vehicle Limited Warranty

BMW's commitment to building quality automobiles extends to providing quality services throughout the world. Your new BMW U.S. model purchased under the European Delivery Plan receives the same warranty privileges as those purchased and delivered in the U.S. Every U.S. model BMW is backed by a new vehicle limited warranty of 4 years/50,000 miles, whichever comes first from the date of sale. See www.bmwusa.com for full warranty details.

While traveling, authorized BMW centers in Europe will honor the U.S. model warranty coverage up to six months without mileage limitations. Should your car require servicing, a BMW trained professional is never far away — another advantage to owning the car that Europeans consider a stalwart friend rather than a luxury. So relax and enjoy the ride.

"We arrived at the Munich Airport to be picked up by a chauffeured 7 Series BMW and the journey had only just begun. We were taken to the BMW delivery center where our new 650 BMW was waiting under the lights. Our trip, with our European navigator guiding us to each new destination, was the experience one only dreams about. Each new hotel, each new road, was more grand than we had ever imagined. Seeing the country side, riding in a machine that the 650 brings to the road, was so much more than we thought possible."
